

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for WY5600214
(Public Water System Name)

Snake River Mobile Home Park

Our water system violated several drinking water regulations over the compliance period shown below. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are indicators of whether or not your drinking water meets health standards. During 2013-2016, we did not monitor for See below, and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the compliance period, how often we are supposed to sample and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were taken
Nitrate	Quarterly	1	4 th Quarter 2016	1 st Quarter 2017
Lead & Copper	Three Years	5	2013-2015	2016
SOC's	Quarterly	1	4 th Quarter 2015	1 st Quarter 2016
VOC's	Quarterly	1	4 th Quarter 2015	1 st Quarter 2016

What happened? What is being done?
 (describe corrective action.)
